PROFESSIONAL SUMMARY

IT Support Specialist and Web Developer with 7+ years of experience in technical support, Microsoft 365 administration, network troubleshooting, IT infrastructure management, and web-based system development across multi-branch operations. Skilled in hardware and software troubleshooting, user account management, remote support, system maintenance, and website development using HTML, CSS, JavaScript, PHP, and MySQL.
Knowledgeable in **Zoho CRM, Zoho Desk, Zoho Mail, Zoho One, Zoho People**, **Zoho Books**, **Zoho Projects**, as well as **ServiceNow, Jira, Spiceworks, and HubSpot CRM** through professional training, certification programs, and self-directed learning. Familiar with user management, role-based access control, password resets, ticket management, workflow automation, CRM administration, and IT service management (ITSM) best practices.
Proven ability to support over 100 employees across 8 branch locations while maintaining secure and reliable IT systems and developing web-based solutions serving more than 25,000 clients.

WORK EXPERIENCE

Saklaw Foundation Inc (A Microfinance NGO) **August 2018 – Present**

IT Support Specialist / Web Developer

- Managed and optimized core IT infrastructure across 8 branches as part of a two-person IT team, supporting 100+ employees through network administration, Microsoft 365 management, operating system deployment, and user account administration.
- Diagnosed and resolved hardware, software, network, and Microsoft 365 issues, minimizing downtime and maintaining business continuity across multiple branch locations.
- Maintained and secured company and client databases containing over 25,000 records, ensuring data accuracy, accessibility, and operational efficiency.
- Provided remote and on-site technical support for 100+ employees across 8 branches, including troubleshooting, software installation, account access management, and end-user assistance.

PERSONAL PROJECTS

- Company Website Development – saklawfoundationinc.com
  Developed and maintained the company website to improve accessibility, communication, and online services for clients and branch operations.
  Technologies Used: HTML, CSS, JavaScript, PHP, MySQL, Hostinger.
- Real-Time SMS Notification System
  Developed an SMS notification system to improve operational communication and branch coordination.

EDUCATION

Mindoro State College of Agriculture and Technology **Calapan City, Oriental Mindoro**
B.S. in Information Technology **2014 – 2018**
